Dear Hiring Manager,

I am writing to express my interest in opportunities where I can apply my skills in data science, machine learning, and frontend development. With a strong technical foundation and a passion for solving real-world problems using AI, I bring a unique blend of analytical thinking and software development expertise. I am currently pursuing my MBA in Data Science with AI at SRM University, Chennai, which continues to enhance my decision-making and business understanding.

I hold a B.Tech in Computer Science and Engineering with a CGPA of 9.22 and have earned certifications in Java, Python for Data Science, C++, AWS Machine Learning Foundations, and SQL. My practical experience spans ML, DL, NLP, and web technologies such as HTML, CSS, JavaScript, React, Python, and SQL.

I have worked on impactful projects including a Voice-Based Multilingual Translator, a DDH X-ray Classification model, and Sentiment Analysis using BiLSTM and CNNs. During my internship at Yanthraa, I developed AI agents for automation and implemented Retrieval-Augmented Generation (RAG) pipelines for efficient information retrieval.

I am passionate about building intelligent, data-driven solutions that create meaningful impact. I am confident that my skills, curiosity, and dedication to continuous learning would allow me to contribute effectively in a challenging professional environment.

Thank you for your time and consideration. I look forward to the opportunity to contribute and grow.

Sincerely,  
Lakshmi Sukadha
